DETAILED ACTION

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: With respect to claim 1, the cited prior art does not anticipate or make obvious, *inter alia*, a method for process control in an integrated circuit process comprising: providing a wafer substrate, forming a pad layer on wafer substrate, forming a metal layer on pad layer, patterning metal layer to form at least one metal plate in at least one region of wafer substrate, milling a plurality of substantially parallel trenches in at least one metal plate, thereby forming a critical dimension test array wafer and measuring the widths of parallel trenches therebetween, thereby calibrating dimension test array wafer, mounting and inserting calibrated critical dimension test array wafer in a sample chamber of a process control scanning electron microscope, calibrating process control scanning electron microscope by measuring the widths of trenches therebetween and using process control scanning electron microscope to measure widths of lines on an in-process integrated circuit wafer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
